

### English & Reading

-Create an acrostic poem about our current situation, isolation. Use the first letter in each line to spell a particular word or phrase. Isolation, Rainbow, Family are some examples of words you could use as the basis of your acrostic.

-Plan and write a rhyming poem. First, you need to decide the 'theme' of your poem- what it is you are going to be writing about. E.g. family or summer. Then brainstorm ideas, and rhyming words. Once you have a word bank, write a rhyming poem! Watch this video to help:

Practise year 3/4 wordlist and new spellings on spelling shed.

Practise year 3/4 wordlist and new spellings on spelling shed.

**Please continue to read and share stories every day!** 😊

### Maths

Visit White Rose Year 3 :

<https://whiterosemaths.com/homelearning/year-3/> and have a go at completing week 2 learning activities choose between week 2 without a date of week 2 beginning 27<sup>th</sup>. Both focus on learning more about fractions!

Practise times tables every day. Access <https://trockstars.com/> and <https://www.topmarks.co.uk/maths-games/hit-the-button> for online games. Alternatively, write them down and practise them using our squiggle work.

Practise number bonds to 10, 20 and 100- make sure you have super quick recall at all of these.

### History/Geography: Extreme Earth

Watch [https://www.youtube.com/watch?v=K7Oq9\\_DU1Mc](https://www.youtube.com/watch?v=K7Oq9_DU1Mc) to find out how volcanoes are formed. You can also do some research of your own into volcanoes and create a fact sheet and a glossary of any new words you find. Another useful link is: <https://www.bbc.co.uk/bitesize/topics/z849q6f/articles/zd9cxyc>

First, draw a volcano and label the main parts- you can use the PowerPoint or you own research to help you.

Next, explain how a volcano is created and grows. These can be broken down into 4 main stages.

### Science:

Plants

-I would like you to think about what plants need to grow and write down what you think. Then research or investigate if your initial thoughts were correct.

-Once you know what a plant needs to grow, if possible, I would like you to plant a seed such as a sunflower or a bean and record its progress through photographs or sketches.

#### **-Investigation: Can a plant grow in the dark?**

First make a prediction of whether you think the seed will grow.

Now, plant a second seed and place it in a dark place and observe over time what happens to it.

Compare the two different seeds.

Watch <https://www.bbc.co.uk/bitesize/clips/z3m76sg> and see what plants need to grow, you could design an information poster.

### Religious Education

Carrying on from last week, what do you know about the main Muslim symbol? Take a closer look and read the Power Point.

Create and decorate a mobile to show the main symbol of Islam. See separate documents for help.

### Physical Education

Try Joe Wicks morning workout

<https://www.youtube.com/user/thebodycoach1/videos>

Create your own warm up and work out and ask a family member to try it out with you.

Practise your throwing & catching.

## Year 3 Week 2

### PSHE/Well being.

Do something every day that makes you smile! 😊

### Art

#### Every Day Object Art Challenge.

Create a master piece using items found in your home. Here is an example of some of mine... I can't wait to see yours!
