

How can you make the larger marble travel further?
What do you think would happen if you rolled the large marble into the smaller marble?
What do you think would happen if you used a shorter ramp?
What do you think would happen if you used a longer ramp?
What do you think would happen if you did this experiment on a different surface (e.g. carpet, gravel, grass?) Why?

Marvellous Marbles

Marvellous Marbles

How can you make the larger marble travel further?
What do you think would happen if you rolled the large marble into the smaller marble?
What do you think would happen if you used a shorter ramp?
What do you think would happen if you used a longer ramp?
What do you think would happen if you did this experiment on a different surface (e.g. carpet, gravel, grass?) Why?
