

8 Page Mini Book Template

Use this easy to make A4 mini book to make your own books – great for lapbook type projects or anything you do that you want to present as a book.

1. Start by folding along all the lines on the A4 template. Or use a sheet of paper of your choice and follow the fold pattern. Press each fold down flat with a ruler or your fingernail.

2. Fold the sheet in half widthways and then cut along the dotted line to the centre. Open the paper out and you should see that you have cut along the whole length of the dotted line.

3. Now fold the paper in half lengthways so that you see a diamond shaped hole from above.

4. Push the opposite corners of the diamond shaped hole together to form the pages of your book.

5. Fold and flatten your book. Use any way you wish!

You may find this [video link](#) useful when creating your mini book.
