Topic:

Science: Have a look at the Working Together & Staying alive PowerPoint. Complete the World habitat sorting worksheet and if you have time have a go at playing the world habitat game!

R.E: The story of Abraham and Isaac- read the story PowerPoint and retell the story using pictures in your work book.

Geography: Research animals that live in the rainforest and chose two animals to find out about in more depth. Create a 'fact file' about these animals in your workbook or use the help worksheets attached.

P.E: Choose a home P.E challenge to have a go at and ask a grown up to record you! I have attached some fun websites and videos for you to look at and try:
