

All about Rabbits

Rabbits are one of the cutest and fuzziest animals. They make great pets! Rabbits are very small mammals with short, very soft fur. They have long pointy ears, and a fluffy tail. They also have long legs that are great for hopping and jumping around, and long teeth that help them chomp on delicious vegetables! Female rabbits are called does, male rabbits are called bucks, and baby rabbits are called kittens. Rabbits like to live together in burrows underground.

Fun Facts

- Rabbits are born without fur.
- There are many different species of rabbits.
- Rabbits only sweat from their feet.
- Rabbit teeth never stop growing.
- A rabbit's foot is seen by some people as a symbol of good luck.
