# **Instructions**

#### You will need:

- Materials board
- Counters
- Dice
- Cards

#### Before you play:

- This game is for 2-4 players
- · Cut out the dice and glue the tabs together to make a cube.
- · Cut out the counters above, one for each player.

#### How to play:

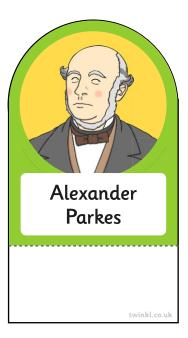

- 1. Place the counters at the start of the game, in the factory.
- 2. Take it in turns to roll the dice and move around the board.
- 3. If you land on a space with a star flag, ask a friend to read you one of the true or false cards linked to materials and have a go at answering the question. If you answer the question correctly, you can move forward one extra space!
- 4. The first person to get to the end of the production line wins!

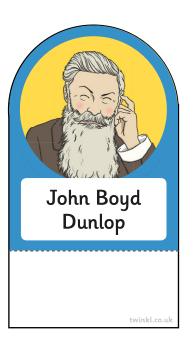

Which inventor will get there first?

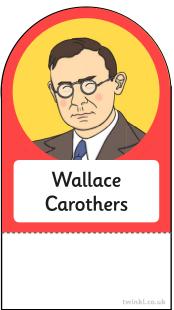

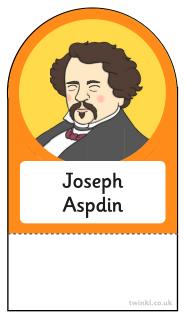

# Counters

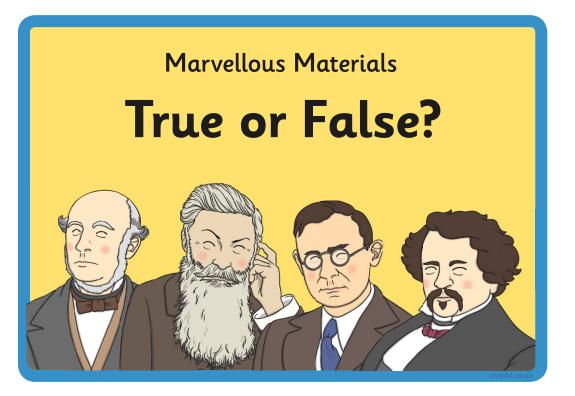

Cut out each counter and fold behind at the dotted lines to make them stand upright.

The tyres on your bicycle are made from plastic.

True or false?

#### Answer
